Editorial

Dear Partner,

For over 50 years, the fischer brand has stood for innovative fastening technology and system competence – in the area of plastics, for metal anchoring and for chemical fixings. In this process we have also gained a great deal of know-how with screws which we already have on the market today, along with our dowels.

We now want to use our extensive know-how in the area of steel to give you a more extensive range. In the future, you will be able to rely on the fischer quality you are used to and our know-how with screws as well. With our new line we offer you fixing solutions for all different applications – from all-purpose to the special screw, from high tech for chipboard to terrace fixings.

And with our unique new "fischer Power-Fast" screw, we are fulfilling requirements as a premium supplier in this new line. And this is not the only place where our 50-year experience as a fixing specialist comes into play. These screws will impress you with their simple handling features, as well as their maximum safety and cost-effectiveness. In comparison to competitor products, "fischer Power-Fast" screws impress because of their low resistance to screwing-in. This makes possible fast, comfortable work that requires less effort. The special design and the high quality of the screws also ensure that the head does not tear out so easily and the screw does not bend. This not only ensures less screw consumption, but also ensures that workpieces that are often expensive remain undamaged. For example, wood is not splintered, torn out or split. With our new range of screws we offer you maximum ease with high cost-effectiveness. Approval of "fischer Power-Fast" screws by building authorities demonstrates the optimal safety of these products.

Try them and convince yourself!

Regards, Klaus Fischer

The new fischer **Power -Fast.**

**Extra deep
recess**

**Double cone for strength
and quality**

**Underhead cutting ribs for a
flush countersink**

Notched threads eliminate wood splitting

Spiral ribs reduce installation torque

Unique point for fast start

**In one sense each screw is the same as the next one:
It is perfect for the job it is meant for.**

As perfect as the screws: fischer packaging.

One of our strengths is our ability to think one step ahead. As such, we consider it a matter of course that a comprehensive range of screws should be available in the perfect packaging.

Fit for construction sites

The fischer packaging sizes:

Carton packaging (L x W x H in mm):

F1 (60 x 90 x 30)	F8 (180 x 90 x 45)
F2 (105 x 90 x 45)	F9 (230 x 90 x 45)
F3 (105 x 90 x 60)	F10 (140 x 90 x 45)
F4 (115 x 90 x 90)	F11 (315 x 90 x 45)
F5 (140 x 90 x 90)	F12 (315 x 90 x 90)
F6 (180 x 90 x 90)	F13 (430 x 90 x 90)
F7 (230 x 90 x 90)	F14 (560 x 90 x 90)

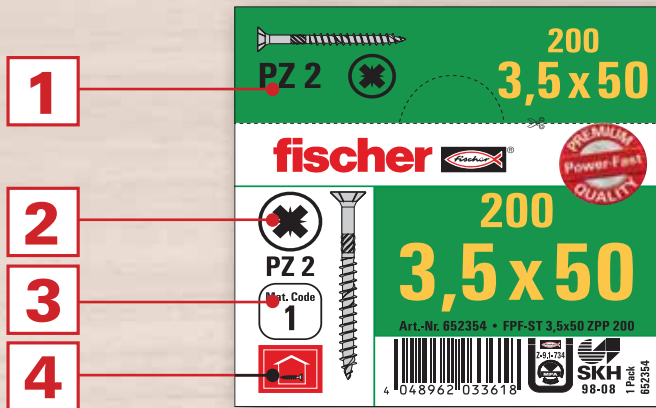

Packaging in bags:

FPB1 (50 x 130)
FPB2 (50 x 205)
FPB3 (50 x 280)
FPB4 (110 x 130)

The fischer screw label: 4 steps to the right screw.

Label colour code:

1

	fischer Power-Fast chipboard screws		Special screws
	fischer Classic-Fast chipboard screws		Stainless steel screws
	Construction screws		Drywall screws

Available with the following drives:

2

	TX-Star recess		Cross drive PZ		Cross drive PH
---	----------------	---	----------------	---	----------------

The material code refers to the upper surface coating or the material.

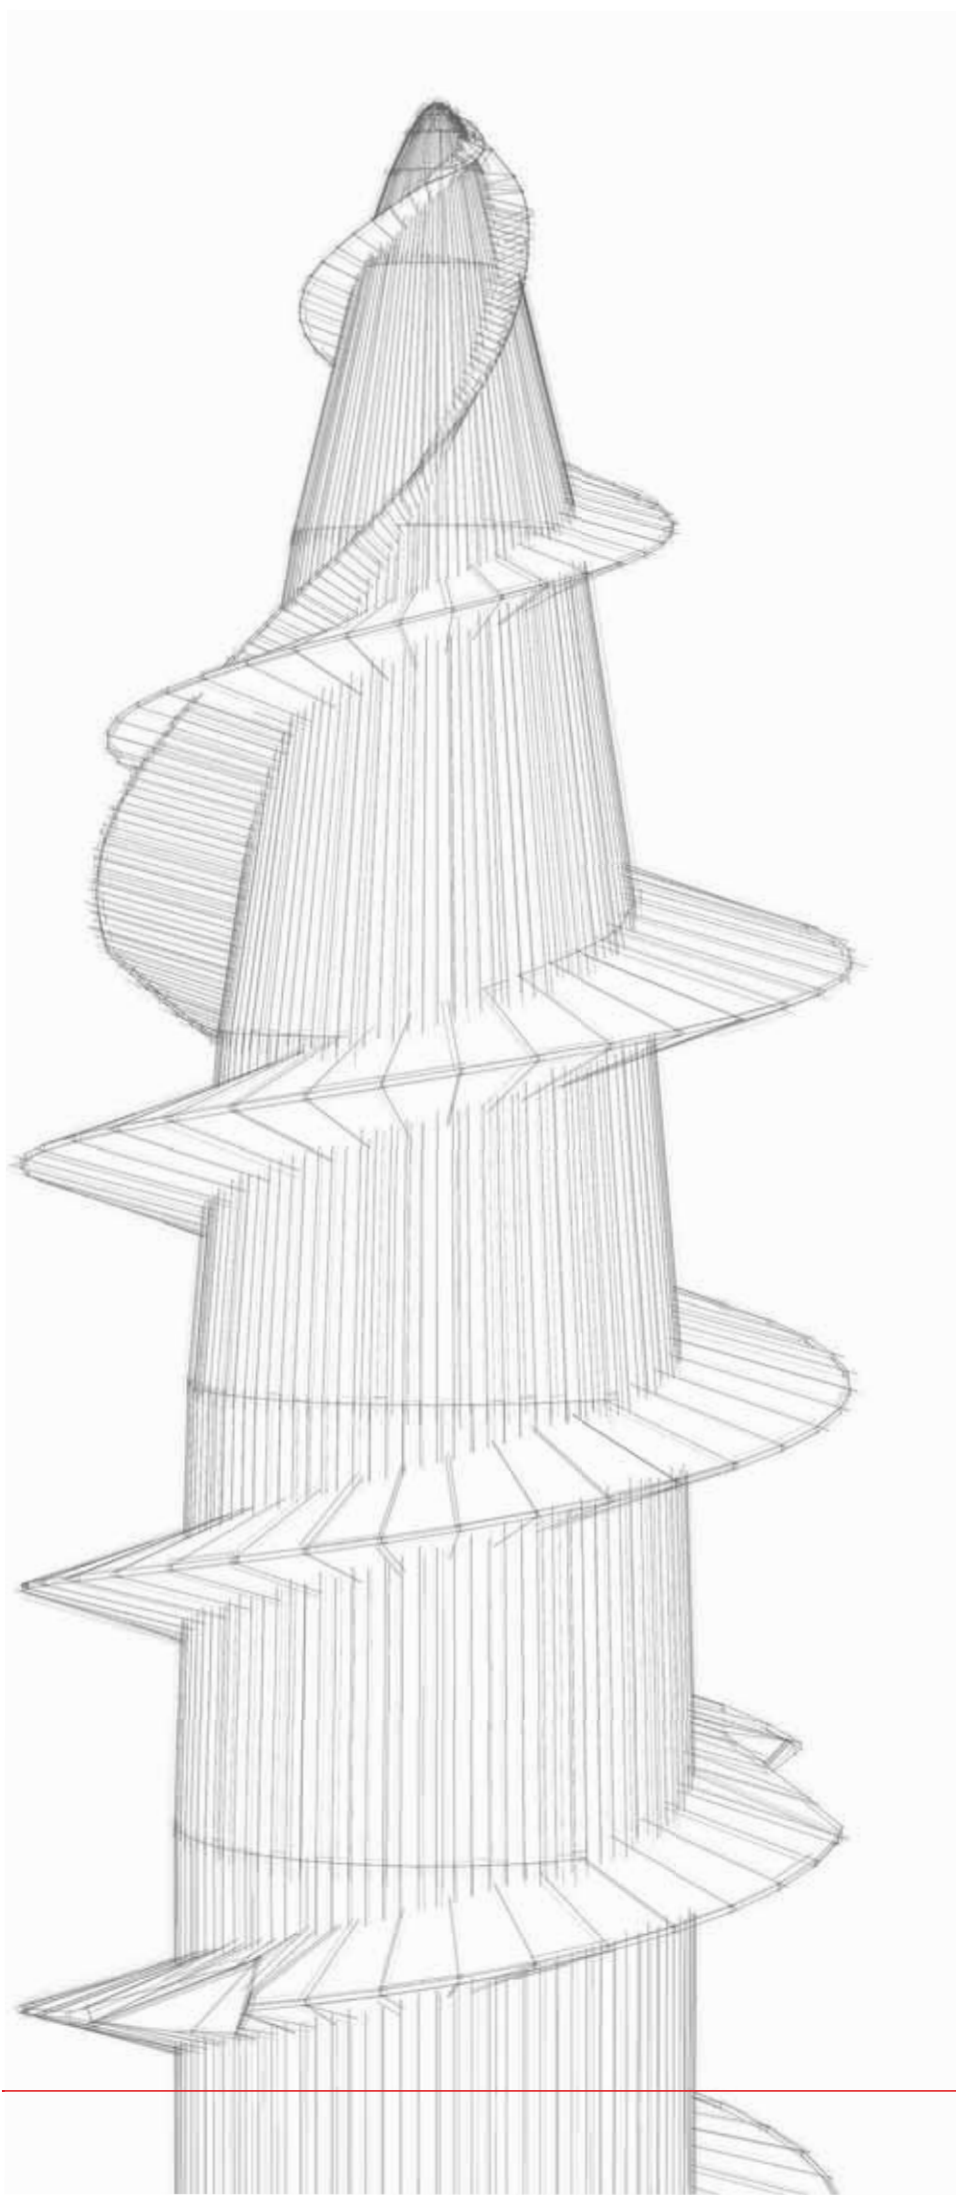

3

 = galvanized, blue zinc plated	 = BONUS Zinc	 = burnished
 = hot-dip galvanized	 = A2 or A4 rust-free stainless steel	 = copper

fischer Power-Fast

chipboard screw

The benefits:

- Easy to screw in
- Low splitting tendency
- Power and battery-saving
- Crack avoidance
- Clean results
- Building authorities-approved
- Wide selection of dimensions and surfaces

Countersunk head

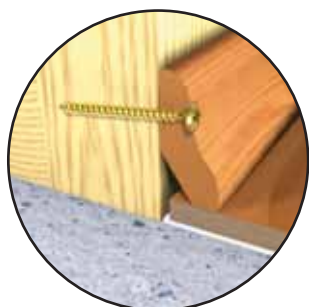

For laminated wood, hard wood, soft wood, timber joints, e.g. carports, balcony construction and all load-bearing components.

Pan head

For metal on wood joints, e.g. metal fittings, angles, joist hangers and other metal and wood joints.

Raised countersunk head

For skirting boards, strike plates. Wherever screw heads are visible and aesthetics are important.

Chipboard screw fischer Power-Fast

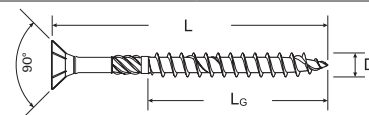

- Yellow zinc plated
- Countersunk head
- TX-Star recess
- Partial thread
- High performance wax

Screws with partial thread, from 50 mm:
with milling ribs on shank

fischer construction screws

Countersunk head

- **TX-Star recess**
Yellow zinc plated, partial thread page 51
- **Washer for construction screw**
Yellow zinc plated page 52

Flange head

- **TX-Star recess, flange head**
Yellow zinc plated, partial thread page 53

Construction screws

fischer construction screws

The benefits:

- Easy to use due to optimum power transfer and cutting notch
- Smooth surfaces due to cutting ribs below head
- No pre-drilling necessary
- Quick to install due to special thread form
- Available as a countersunk and flange head screw

Construction screws

Countersunk head

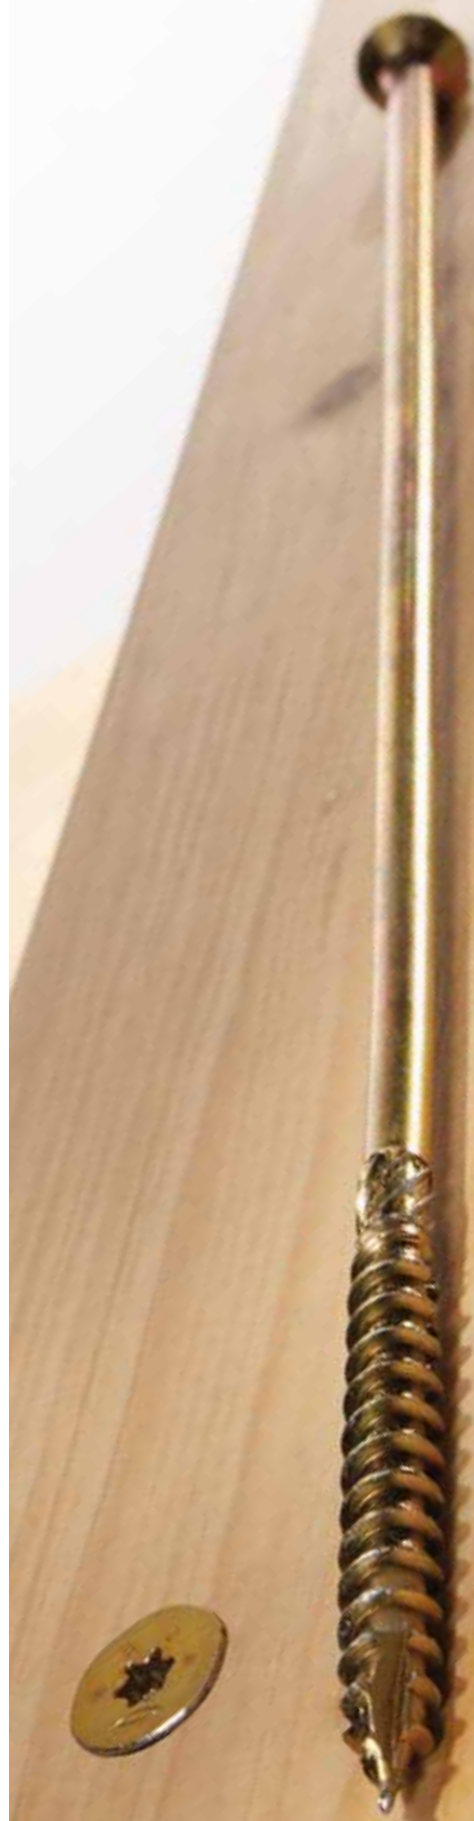

For timber constructions, e.g. post construction, timber frame construction, timber houses, carports, conservatories, playground equipment.

Flange head

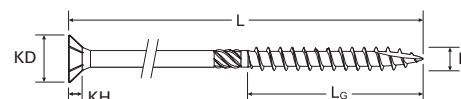

Similar applications to countersunk head timber construction screws. High pull-through resistance.

fischer construction screw countersunk head

- Yellow zinc plated
- Countersunk head
- TX-Star recess
- Partial thread
- High performance wax

fischer special screws

Hinge tape screw

- Cross drive PZ, slim countersunk head 5 mm
 Yellow zinc plated, full thread page 57
 Blue zinc plated, full thread page 57

MDF-plate screw

- TX-Star recess, small countersunk head 75°
 Yellow zinc plated, partial thread page 58

Timber floor screw

- TX-Star recess, small countersunk head 6 mm, 60°
 Yellow zinc plated, partial thread page 58

Stainless steel
screws
pages 59–74

fischer special screws

The benefits:

Strap hinge screws:

- Sits flush in hinge due to small head (5 mm)

MDF board screws:

- Quick and easy countersinking
- Perfect edge screwing
- No pre-drilling necessary

Flooring screws:

- No pre-drilling necessary
- No splitting
- Can be fully countersunk due to conical, narrow head

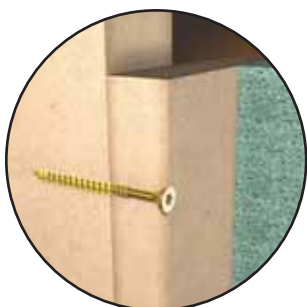

Special screws

Strap hinge screws

To fit hinges and piano hinges.

MDF board screws

For MDF components, e.g. upscale interior finishing and furniture construction.

Flooring screws

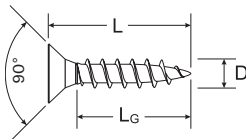

Ideal for laying solid wooden flooring.

fischer Hinge tape screw with slim countersunk head

- Yellow zinc plated
- Slim countersunk head, 5 mm
- Cross drive PZ
- Full thread
- High performance wax

fischer stainless steel Power-Fast

The benefits:

- Particularly well-suited to exterior areas and damp rooms
- Available with countersunk head, pan head and raised countersunk head
- Extremely fast
- Low splitting tendency
- Power-saving
- Crack avoidance
- Clean results
- Building authorities-approved

Countersunk head

For coated wood, hard wood, soft wood, timber joints, e.g. carports, balcony construction and all load-bearing components.

Pan head

For metal on wood joints, e.g. metal fittings, angles, joist hangers and other metal and wood joints.

Raised countersunk head

For visible applications where aesthetics are important.

fischer stainless steel screws

The benefits:

- Particularly well-suited to exterior areas and damp rooms.

Wood façade screws

- Smooth, splice-free surfaces
- For all types of wood façade

Terrace screws

- Split-free screwing of materials
- Easy to secure in hard woods
- Finished surface suitable for bare feet due to small countersunk head with cutting ribs
- Precision installation through special thread

Post screws

- No pre-drilling
- Perfectly fitting screw head for optimum hold in metal supports
- Cutting notch makes pre-drilling unnecessary

Wood façade screws

For visible screwing of timber profiles onto timber substructures.

Terrace screws

For terrace decking areas with timber substructures. Also suitable for hard woods (e.g. bankirai and massaranduba).

Post screws

For securing wooden posts in metal supports with drill holes of 7–10 mm, e.g. for pergolas, fences or screens.

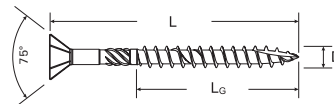

fischer Wood façade screw A2

- Stainless steel A2
- Small countersunk head
- TX-Star recess

fischer Drywall screws

The benefits:

- Quick, secure hold
- No pre-drilling up to 2 mm thickness
- For dry and acoustics construction
- Hardened and phosphated

Drywall screws with bugle head and fine thread

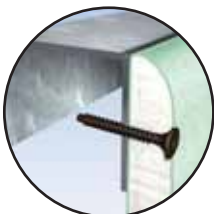

For plasterboard.
Up to 0.7 mm thick metal profiles without pre-drilling.

Drywall screws with bugle head and coarse thread

For plasterboard on timber supports.

Drywall screws with fine thread and drill bit

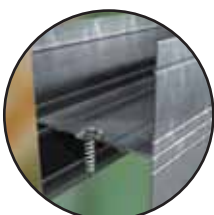

For plasterboard with self-cutting drill bit.
Up to 2 mm thick profiles without pre-drilling.

Fermacell screws with HiLo-thread

Especially for plaster fibreboard. Small countersunk head.
Up to 0.8 mm thick metal profiles without pre-drilling.

Profile joining screws

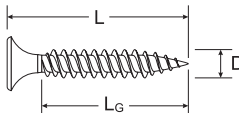

To reliably fix metal profiles together.
Without drill-bit: up to 0.9 mm thickness without pre-drilling.
With drill-bit: up to 2 mm thickness without pre-drilling.

fischer Drywall screw, with fine thread

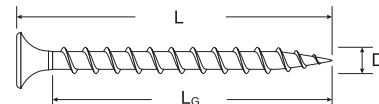

- Phosphated
- Bugle head
- PH recess
- Fine thread

fischer accessories

The benefits:

Cover caps:

- Special form ensures optimum fitting with screw head
- Screw head is protected from dirt and damage
- Available in a range of colours

Bits:

- Diamond coating significantly reduces ejection force
- Very long lifespan
- Secure transferral of high torque

Cover caps

Optimised fit for fischer chipboard screws.

Cover cap diameter 12 mm.

Diamond bit

The heavy-duty bit.

Profi bit

Perfect for machine use wherever a long service life is important.

fischer Cover caps

- Plastic
- for screws with Cross drive PZ
